

Fluke 10 DMM frequency response

Frequency (Hz)	Voltage (Vac)
100	1.334
200	1.334
300	1.334
400	1.334
500	1.334
600	1.333
700	1.333
800	1.333
900	1.332
1000	1.332
1500	1.330
2000	1.329
3000	1.326
4500	1.325
6000	1.324
8000	1.324
10000	1.323
12000	1.323
14000	1.322
16000	1.321
18000	1.320
20000	1.319

Note : The above shows that on the example tested that the repsonse is down by 0.2% at 1000Hz compared to 100Hz and down by 1.1% at 20000Hz. This meter could be used across the audio spectrum without introducing major errors to the measurement.
