

Jaycar QM-1535 DMM Frequency response

Frequency (H Voltage (Vac)	
100	1.338
200	1.337
300	1.336
400	1.335
500	1.333
600	1.331
700	1.329
800	1.327
900	1.324
1000	1.321
1500	1.305
2000	1.282
3000	1.227
4500	1.125
6000	1.016
8000	0.884
10000	0.757
12000	
14000	
16000	
18000	
20000	

Note : Specification for the meter gave a bandwidth on Vac of 400Hz. The above shows that on the example tested that the repsonse is down by 1.3% at 1000Hz compared to 100Hz. and down by 4.2% at 2000Hz. This meter would be very usable on the Vac ranges up to 1000Hz without introducing large errors.
